

## Module Test 2

### Listening

#### Part 1

- |                  |                |             |
|------------------|----------------|-------------|
| 1. Jamieson      | 5. ten         | 9. feedback |
| 2. afternoon     | 6. suit        | 10. time    |
| 3. communication | 7. passport    |             |
| 4. week          | 8. personality |             |

#### Part 2

- |       |             |
|-------|-------------|
| 11. A | 15. River   |
| 12. B | 16. 1422    |
| 13. A | 17. Top     |
| 14. C | 18. Pass    |
|       | 19. Steam   |
|       | 20. Capital |

### Reading passage 1

1. Oval
2. The husk
3. Dried seed
4. Mace
5. FALSE
6. NOT GIVEN
7. FALSE
8. Arabs
9. Plague
10. lime
11. Run
12. Mauritius
13. Tsunami

## Reading passage 2

- |       |                       |
|-------|-----------------------|
| 14. A | 19. Human error       |
| 15. B | 20. Car-sharing       |
| 16. E | 21. Vehicle ownership |
| 17. G | 22. Milieage          |
| 18. E |                       |

23,24 — C, D

25,26 — A,D

### Professional English

1.

(1.1)HDDs and (1.2)SSDs

1.1 HDDs

Advantages:

- 1.For long-tern data storage and archival purposes
2. available at a lower cost per gigabyte

Disadvantages:

1. Slower data read/write speeds compared to SSDs
2. Susceptible to physical damage due to moving parts

1.2 SSDs

Advantages:

1. Much faster data read/write speeds
2. No moving parts, making them more durable and resistant to physical shocks

Disadvantages:

1. Limited write cycles
2. More expensive for the same storage capacity as an HDD.

2.

Advantages:

1. Cost Efficiency: Cloud services can be more cost-effective at this eliminate the need for on-premises hardware and reduce maintenance costs.
- 2.Scalability: Cloud resources can be easily scaled up or down to meet changing needs.

Disadvantages:

- 1.Limited Control: Users have limited control over the infrastructure and may be subject to the cloud provider's policies and limitations.
- 2.Security Concerns: Storing data on the cloud raises security and privacy issues, as it's vulnerable to data breaches and hacking.
